

What is MiCare?

MiCare is the Military's Secure Messaging service

Secure Messaging is a safe method of communication between patients and their healthcare team. It allows for a more protected exchange of health information compared to using a personal email account.

Take Command of Your Healthcare and Register Today

Registration is Easy!

Registration is done in-person, just fill out a registration card and show your military ID to a medical group staff member

You will then receive an email prompting you to complete the registration process

Once you complete the required steps you can begin sending messages to your healthcare team!

Benefits of MiCare

- Avoid unnecessary office visits and telephone calls
- Communicate online with your healthcare team about non-urgent symptoms
- Receive your test and lab results
- Request an appointment
- Request medication renewals
- Access a large library of patient education materials
