

Which path should you take?

Do you live in a vulnerable area?
(Mobile home, an area that floods frequently, on a barrier island or near the coast)

Have you been ordered to evacuate?

YES

NO

Every Floridian should develop a family preparedness plan well in advance of a storm threat.

Did you know...?

You need to store at least a three-day supply of water for each person in your household. Stored water should be changed every six months.

www.redcross.org

Assemble your disaster supply kit
(see other side)

Did you know...?

When possible, evacuating within your county reduces your chance of being stranded in traffic and shortens your time to return home.

Before a storm threatens, contact your county's emergency management office for local evacuation information.

Did you know...?

Many public shelters do not allow pets. If you evacuate to a shelter make arrangements for your pets.

Did you know...?

Making your home more disaster resistant can prevent the need to evacuate and can reduce damages.

When you are leaving and where you are going

FAMILY PREPAREDNESS TIPS FOR STAYING AT HOME DURING A HURRICANE

- Develop a family disaster plan
- Stay alert to storm advisories
WATCH and WARNING—Know the difference.
- Purchase a NOAA weather radio
- Keep a Disaster Supply Kit ready
- Have enough food and water for at least three days
- Protect valuable documents
- Make your home more disaster resistant
Prepare to board up windows and glass doors, anchor loose yard objects or bring them inside.
- Get cash
Following a hurricane, banks and ATMs may be temporarily closed.
- Fill your car with gasoline
- Have a pet plan
Before a storm threatens, contact your veterinarian or local humane society for information on preparing your pets for an emergency.
- Do not use candles or open flames as a light source
- Work with your neighbors
Check on elderly or those with special needs.
- As the storm hits, gather your family in a safe room (An interior room with no windows)
- Following the storm, watch out for downed power lines
- Listen to your local officials!

FOR EVACUATING DURING A HURRICANE

FAMILY PREPAREDNESS TIPS

- **Stay alert to storm advisories**
WATCH and WARNING—know the difference.
- **Enact your family disaster plan**
- **Map out your route**
Use travel routes specified by local authorities.
DO NOT get on the road without a place to go.
- **Fill your car with gasoline**
- **Evacuate if told to do so**
DO NOT get stranded, EVACUATE EARLY
- **Enact your pet plan**
Before a storm threatens, contact your veterinarian or local humane society for information on preparing your pets for an emergency.
- **Bring your disaster supply kit**
Including important documents.
- **Secure your home before leaving**
Board up windows and glass doors, anchor loose yard objects or bring them inside and lock your doors.
- **Get cash**
Following a hurricane banks and ATMs may be temporarily closed.
- **Notify family and friends of your plans**
- **When evacuating:**
If possible, evacuate to the home of either friends or family in a non-vulnerable area within your county. Next try a motel or hotel and as a last resort go to a shelter. Remember, shelters are not designed for comfort and do not usually accept pets.

People who require special assistance in evacuating should register with their local emergency management office.

- proper identification/immunization records
- ample supply of food and water
- a carrier or cage
- medications
- muzzle and leash

Watch and Warning...Know the Difference

When a **HURRICANE WATCH** is issued for your part of the coast, it means that hurricane conditions are possible within the watch area. The hurricane watch is issued 48 hours in advance of the anticipated onset of tropical-storm-force winds. This watch should trigger your family's disaster plan, and proactive measures should be initiated especially those actions that require extra time such as securing a boat, leaving a barrier island, etc.

When a **HURRICANE WARNING** is issued for your part of the coast, it means that hurricane conditions are expected within the warning area. The hurricane warning is issued 36 hours in advance of the anticipated onset of tropical-storm-force winds. Once this warning has been issued, your family should be in the process of completing proactive actions and deciding the safest location to be during the storm.
